Assessment Task 3

Instructions

- The deadline for this assessment task is **01/11/2026, 11:59pm**.
- This assessment is a group task – *group* and *individually* assessed.
- Submissions will be made through the subject's Canvas site.
- Feedback will be provided online as comments on your submissions on the Canvas site.
- Early feedback is possible if you do a presentation in Week 12's tutorial class.
- All communications must use your UTS email account.

Assessment Task 3 – System Testing (30 marks)

You are required to work in groups of 3-5 students (maximum 6 in exceptional situations) to complete a report using Assignment 3 Template.docx.

The report includes the following sections for you to complete:

1. **Overview** – *group work*
2. **System Functions** – *group work*
3. **Test Team** – *group work*
4. **Task Schedule** – *group work*
5. **Test Environments and Tools** – *group work*
6. **Test Cases** – *individual work*
7. **Analysis and Reflections** – *group work*

Optional in-class presentations will be organised in week 12 tutorials to provide early feedback.

Marking Criteria

You are required to

1) submit the completed **Assignment 3 Template (i.e., the report)** via Canvas (one submission per group).
2) submit **source code for automated testing** along with the report, preferably by providing *a GitHub link or uploading a .zip file* (one submission per student). And attach a **screenshot** of source code corresponding to each test case in the report.

The rubric is available on the Assignment's homepage:
